CAREER OBJECTIVE

I am oriented in improving my skills in front end technologies. I've focused on developing scaleable and well documented dry code. I enjoy working collaboratively but can also run with projects on my own.

WORK EXPERIENCE

React with SCSS Styling

One Page Portfolio UI

- Creating site fully styled and responsive. Using such technologies and tools like scss, react hooks, functional components.
- The site is deployed on netlify and have repositories on bitbucket and github.

React with SCSS Styling

Multi-Page Quiz UI

- Complex web site which is using react. It is fully responsive and it using npm like react-router or react-beautiful-dnd.
- Despite five different categories by using Context the code is kept dry.
- It also can be found on github and bitbucket. The site is also deployed on netlify.

React with Typescript

One Page UI

- The project manage state by using Context and Redux.
- Thanks to Typescript this project is much more immune to mistakes.
- The SCSS is based on BEM methodology.
